

## SCHOOLS TO HAVE EXHIBIT AT FAIR

Principal for High School Is Named—New Bookkeeping System.

A request from Frank Rich, secretary of the fair association, asking that the schools have an exhibit at the fair this fall, met with the approval of the board at its session Monday and, upon the recommendation of Dr. B. M. Wortham, it was decided to notify the association that the schools will make such an exhibit.

Peabody said: "I think it a good idea and we should have an exhibit."

Derbandt said: "I think it fine."

Carpanter said: "The school exhibit attracted much attention last year and it helps the town considerably outside."

**Board Meets in Afternoon.**  
Monday afternoon the school board held its regular monthly meeting in the office of the superintendent at the mesa school and received several bids for repair work and the furnishing of supplies for the ensuing year.

The bids for most of the required supplies for the manual training department were submitted by local firms.

Upon the recommendation of the internal committee, B. F. Thomas, of Tyler, Texas, was appointed professor of Latin in the high school to succeed professor White, appointed principal.

**Leaves Granted.**  
A leave of absence for a year was granted Miss Mabel Cummings and Miss Sophie Gilchrist of the mesa school.

Miss Doris Burton, of El Paso, who is a graduate of the Valparaiso, Indiana, Normal school, and Miss Dixie Laird, of El Paso, Texas, a graduate of the State Normal, were appointed to fill the vacancies at a salary of \$75 per month.

**Discussion Over Bills.**  
When several bills were presented, secretary John Harper said: "At the last meeting it was decided to refer the bills to the finance committee, but Mr. Winter did not want to do that. Mr. Carpanter then said: 'Mr. Anderson spoke to me of the water bill and asked that it be paid.'"

Peabody asked: "Why not pay the water, light and such bills as those which we know to be correct?"

Mr. Harper then continued: "Mr. Winter was anxious for the board to pass on the water bill because it was over \$100 and so much higher than the last one."

Dr. Wortham said: "We are using more water now because we have trees and lawns around the schools and they require care."

Peabody said: "If we want the right kind of prices, we should pay our bills promptly; if there is any reason why any should not be paid, segregate them and decide upon them later."

Auditor Sawyer said: "I have gone over the bills and if they are correct, then I will pay them. Mr. Winter said: 'I see no reason why it should not be paid.'"

Upon motion of Peabody it was then decided to pay all bills which had been found correct by the finance committee.

**To Keep Better Books.**  
Prior to the meeting F. E. Sawyer explained to the external committee the system of bookkeeping and accounts he intends to keep. He requires a full filing system in which all bills and bills will be reserved for reference at any time that they may be required.

The books will be so divided that they will show the amount paid on each school, for what purpose warrants are drawn, the date of their issuance and payment, each bill having a voucher attached. The books will also show the various accounts for which money is paid out and from these books and those of the treasurer, a statement of the condition of the schools may be secured at any time.

## NEW SCHEDULE HITS CLOUDCROFT

Summer Residents Are up in Arms at the Way Trains Operate.

(By Mrs. W. S. Tilton.)  
Cloudcroft, N. M., July 12.—Cloudcroft is up in arms over the new train schedule. It gives no time at the resort between trains. The train arrives at 12:45 p. m. and leaves at 2:40 p. m., scarcely two hours layover. It is all right through the week, but what the cottagers want, and the young dancing crowd also, is a train to leave El Paso Saturdays at 1 p. m., arriving here in time for supper and leaving Cloudcroft at 6 p. m.—that would give the relatives and friends in El Paso a chance to take advantage of the Saturday half holiday, without losing a whole day, and land them in El Paso in time to get a good night's sleep and feel refreshed and rested for business Monday morning.

J. C. Jones of Alamogordo made a flying visit to the lodge and his ranch this week.

Mayor Edmundson has announced that he will not prohibit the exhibition of the Jeffries-Johnson fight pictures at local moving picture shows. "I cannot see why showing pictures here would do any harm," said the mayor. "There is a reason for the prohibition of the exhibition of such pictures in the south, but in Arizona I can see no reason for such action."

E. Harris, a miner, was married to Miss Gertrude Frost.

W. J. Neylan assumed his duties as operator at the Postal Telegraph office.

Henry Hall, formerly connected with the local police force, has been appointed deputy sheriff at Lordsburg.

**ACCUSED OF BEATING AN EMPLOYEE**  
Prominent Mexican Rancher Is Arrested and Jailed at Lerdo.

Torreón, Mex., July 12.—Pablo Lavin, one of the wealthiest and most extensive cotton planters in this district, is reported to have been arrested and placed in jail at Lerdo, accused of having beaten a Mexican laborer, who died from the effects of the beating administered by Lavin.

The report was first given out that the man had been beaten by one of the foremen of the Lavin hacienda, but after his death, several witnesses came forward with the testimony that it was Don Pablo himself who inflicted the wounds.

Gabriel Lavin, a brother of Pablo, was arrested recently on a similar charge, but died while in jail before the case was disposed of.

Each of the chief organs of the body is linked in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

**THE STRONG MAN HAS A STRONG STOMACH.**  
Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

**GIVEN AWAY.**—Dr. Pierce's Common Sense Medical Adviser, new revised edition, sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

## HOW CHINAMEN ARE SMUGGLED?

San Francisco Writer Famously Describes El Paso Conditions?

Evidently San Francisco Sunday magazine newspaper dopists do not believe that truth is more laudable than fiction. Instance: A whole page in the Sunday Call.

True, most of the page was occupied by pictures, but there was about two solid columns of "dope" about "Smuggling Chinese Across the Mexican Border." Immigration officers of El Paso, the center of the whole Mexican border district, have read the story. They are laughing about it.

With the announcement that there is an organization of smugglers—which is true—the writer, who does not indulge in even a pen name, digs into the subject with pictures. It is explained carefully: "When the regulations on the Canadian border become so effective as to make admission impossible, the tide flows to Mexico." Cutting! Cruel! The truth is that the "regulations on the Canadian border" marked a cooperation with the Canadian government whereby the head American office was located in a Canadian city and whereby officials of the two countries worked hand in hand.

Then—dramatic: "Under cover of darkness, he attempts to get across the river in a boat." That's complimentary to the River Grand, which seldom wets one's limbs to the knees.

As proof: "Recently, near El Paso, a smuggler was seen to cross the river with a boatload of Chinese."

Question: Was it a low river side wheeler or a full rigged ship?

Then the writer goes on to disclose a unique plan of smuggling. It is unique. By the writer's plan the Oriental is placed in a barrel, with an automatic rifle, floats down the "silvery Rio," now and then peeping out through the automatic cover to see where he is, or is not. At an opportune moment he lands in the land of the free—oh, land! As proof of this, the Call shows a photograph of a man in a hat and a revolver in a barrel. Strange, the picture resembles one taken on the occasion when a certain fool tumbled over Niagara Falls. Other photographs portray "A Chinaman dressed as a Mexican arrested at El Paso," with background of a Juarez drug store and other interesting things.

As a last rap the writer declares: "There is hardly a man in the immigration service who does not admit the fact that the present laws and the situation can be sized up about as follows."

**GARFIELD PLEADS FOR INSURGENCY**  
Denounces Both the Democrats and Stand-Pat Republicans.

Cleveland, Ohio, July 12.—Cheered by a large audience of progressive Republicans as the "People's candidate for governor of Ohio," James H. Garfield opened the fight to place Ohio in the insurgent column.

In a speech in which he avowed himself an insurgent, the former secretary of the interior set forth the platform upon which the progressive Republicans of this state will enter the fight.

Mr. Garfield declared that the nation stood today in a critical situation, that confronting the country was the problem whether the fight of the progressives was to be carried to a successful issue or whether they were to surrender and admit that government for and by the people was a failure. He said in particular:

"At the coming election we are to choose between two great national parties. The Democratic party, who declare against special interests, has when in power, allied itself with special interests. Many of its leaders have been and are recognized representatives of special interests."

"How is it with the Republican party? It likewise has among its leaders some who are allied with or represent special interests, but on the other hand it has progressive, aggressive leaders who are the people's representatives."

"The country owes a debt of gratitude to the insurgents to congress who would fight against the domination of the special interests and the common good high above party advantage."

"Insurgent senators prevented the passage of the Alaska bill, which in its original form might have turned over the untold wealth of Alaska to a favored few."

"The real danger to the Republican party," he said, "comes from the reactionaries who are controlled by special interests and from the stand-patter who, because it is the easiest way, is willing to return to the weak policy of laissez faire. To follow such leaders leads to disaster."

## JOHNSON MAKING A GOOD RACE

Is Going to Pile up a Tremendous Church Vote For Governor.

Austin, Tex., July 12.—It is admitted by close political observers that the present contest for governor is the closest which Texas has ever seen.

Johnson has made great inroads into the following of Polindexter and Davidson has taken away many of the anti-Prohibitionists from Colquitt.

The only new factor in the fight is the fact that United States senator Bailey is actively championing the cause of Polindexter.

As the campaign nears a close it becomes more apparent than ever that the thickly settled north Texas counties will settle the contest. While every portion of Texas is receiving attention, the final weeks of the campaign will be spent among the voters of that section.

South and West Texas had about taken its final lineup and that Colquitt will carry that section by anything like an overwhelming majority is no longer granted for one moment. He will get a good majority in Bexar, Gillespie, El Paso and Comal, but in other sections Davidson will split the anti-vote with him, getting almost vote for vote. The Prohibition vote will be, of course, divided between Polindexter and Johnson, but it is believed that Johnson will get three votes where Polindexter gets two, for the church element of this entire section is lined up almost solidly behind Johnson.

In North Texas, especially in the old Bailey congressional district, where there is an immense population, it is admitted that Wm. Polindexter is leading. Davidson's well known opposition to Bailey has lessened the chances of the Galveston man.

In East Texas it is admitted that Johnson and Davidson are leading.

In Central Texas the race is neck and neck.

In the great northwest, including the Panhandle country, report has it that the fight is between Colquitt and Johnson, with a good following for both the other candidates.

**Sizing Up Candidates.**  
There has been more or less "mud slinging" during the campaign, but by eliminating the wheat from the chaff the situation can be sized up about as follows:

**For Colquitt.**  
He is for political peace.  
He is against both prohibition and submission.

**For Davidson.**  
He is unobjectionable to Bailey.  
He is running for office while railroad commissioner and drawing a salary which he is giving the state no service.

**For Johnson.**  
He has declared that he will not abide by the Democratic platform in case a submission plank is adopted.  
He has the backing of the liquor interests.

**For Polindexter.**  
He went out of his way to fawn upon Bailey and win his friendship.  
He is for submission and for statutory prohibition.

**For Bailey.**  
He is for strict enforcement of the law.  
He is against Baileyism.

**Against Colquitt.**  
He is too radical on the prohibition issue.  
He would use the rangers as a Campbell.

**Against Davidson.**  
He is objectionable to Bailey.  
For Davidson.  
He is for submission.
